Dannii Minogue says "Yes, Yes, Yes!" to Toronto Fringe Comic

Daniel Nimmo presents:
Aomega
at the Toronto Fringe Festival.

Trans-dimensional agitator Aomega is very worried about you, all of you, as one: Aomega has come to earth to save the world - a world inside the mind of the woman he loves. That is YOU!

Aomega is a brain splitting comedy from beyond space and time - Alien intervention, on-stage evolution, the new age dawning, the mind of a woman... *Aomega* is a hyper-interactive narrative comedy influenced by clown, street theater, and performance art.

"**Genius**" (Channel 7 TV Network Australia) comedian Daniel Nimmo was "**Very Funny**" at the Vancouver Comedy Festival --- he was even famous in Canada – kind of – as Toyota's quirky representative *Uncle Yaris*. Nimmo comes to Ottawa direct from *Magnetic North Theatre Festival* where he is engaged with Toronto based contemporary performance art powerhouse *Mammalian Diving Reflex*. Nimmo is co-founder and Moon-creator for Toronto's wildly successful *Lunacy Cabaret*. He is also prolific as street performer - *Duke Dreamer* - with trademark Midget-on-a-cloud illusion often seen at festivals worldwide.

To create *Aomega* Nimmo teams with Toronto based director Jack Grinhaus (MFA and BA Honors in Theater). Grinhaus' theoretically rigorous direction promises to interact powerfully with Nimmo's onstage-learnt impulse-driven performance for a complex and compelling work www.boundtcreate.com.
